

PRIMERS & UNDERCOATS

There are four Little Greene primers and undercoats, each formulated to correctly prepare a surface for painting.

ACRYLIC PRIMER UNDERCOAT

• (water-based)

A high quality primer and undercoat. An environmentally friendly alternative to oil-based formulations. For bare wood and interior metalwork and plaster as a suitable preparation for all Little Greene finishes.

- Available in colours to complement your chosen top coat colour
- Virtually odourless in application and dry in 2-4 hours
- Environmentally friendly
- Available in 2.5 & 1 Litre

WALL PRIMER SEALER

• (water-based)

A high quality water-based primer for walls and ceilings. Ideal for preparing new plaster, friable or patch-repaired surfaces. Provides the perfect substrate for application of all Little Greene wall finishes including Absolute Matt Emulsion, Intelligent Matt Emulsion, Satin Emulsion, Intelligent Eggshell and Masonry Paint.

- Available in white
- Virtually odourless in application and dry in 2-4 hours
- Environmentally friendly
- Available in 2.5 Litre

TRADITIONAL OIL PRIMER UNDERCOAT

• (oil-based)

A low odour, traditional oil-based primer with reduced VOCs. A high quality, anti-corrosive primer and undercoat for use on bare wood and metalwork as a suitable preparation for all Little Greene finishes.

- Available in colours to complement your chosen top coat colour
- Surface dry in 4 hours, recoat in 16 hours
- Available in 2.5 & 1 Litre

ALUMINIUM WOOD PRIMER

• (oil-based)

A high quality aluminium based primer with excellent exterior performance on softwoods and hardwoods. Seals and protects resinous hardwoods and softwoods in both interior and exterior applications.

- Excellent stainblocking properties
- Single colour (pink)
- Surface dry in 4 hours, recoat in 16 hours
- Available in 2.5 & 1 Litre
